About FH India

Family Health India (FH India) is registered under Section 8 (25) of the Companies Act. With a vision to improving the quality of life of the most marginalized, FH India works in health, nutrition, water and sanitation, and integrated rural development in states with poor development indices such as Madhya Pradesh, Chhattisgarh, Uttar Pradesh, and Rajasthan. FH India teams work collaboratively with state and district governments and community structures such as Panchayati raj institutions, self-help groups and a cadre of community volunteers and health educators to accelerate the response to public health diseases and developmental challenges at the last mile. FH India has managed CSR development projects funded by Godrej Goods and Green, HDFC Bank, Avantha Foundation, BILT India, WHO/India and UNDP. FH India has sound financial, human resources, administrative and procurement systems to ensure that we are compliant with Indian laws and regulations.

We have implemented projects in Madhya Pradesh, Uttar Pradesh, Chhattisgarh, Chhattisgarh and Rajasthan states. Our headquarter is in New Delhi and we have field offices in Budaun, Bareilly, Kanpur and Lucknow in Uttar Pradesh; and Bastar and Kondagaon in Chhattisgarh; and Shivpuri, Sheopur, Balaghat, Sidhi, Singrauli, Hoshangabad, Bhind, Gwalior and Bhopal in Madhya Pradesh.

Key funders and collaborators:

Corporate:

- Godrej Good and Green Pvt. Ltd.
- HDFC Bank
- Avantha Foundation
- BILT

Government:

- Ministry of Health and Family Welfare (MoHFW), Government of India (GoI)
- State Governments of Madhya Pradesh, Uttar Pradesh and Chhattisgarh
- National Vector Borne Disease Control Program (NVBDCP)

Civil Society:

- Local NGOs and civil society organizations (CSOs) in intervention states

UN Agencies:

- United Nations Development Programme (UNDP)
- World Health Organization (WHO)

Past Projects

2009-2012

People Living with HIV (PLHIVs) project- During the year 2010 - 2011, FH India work has benefited 1,668 PLHIVs in Maharashtra and Orissa in partnership with Avantha Foundation and BILT. A total of 1,668 PLHIVs are registered at both the Antiretroviral therapy (AIDS treatment, ART) centres (735 at Ballarpur and 933 at Koraput). Of these 326 and 480 PLHIVs are on ART at Ballarpur, Maharashtra and Koraput, Orissa respectively. This work has been undertaken in areas that are among the most underdeveloped in India and the PLHIVs are drawn from economically and socially backward sections of the society. The work complements the work done by the Government of India through NACO and the State AIDS Control Societies of Maharashtra and Orissa.

FH India continued to strengthen and scale up its work with PLHIVs and undertook a range of activities for the betterment of their lives in year 2011-2012. A total of 1,926 PLHIVs are registered at both the Antiretroviral therapy (AIDS treatment, ART) centres (814 at Ballarpur

and 1,142 at Koraput). Of these 350 and 578 PLHIVs are on ART at Ballarpur, Maharashtra and Koraput, Orissa respectively.

2013 - 2014

1. **Poverty reduction:**
 - a. Implement projects with marginalized and poor populations on economic livelihood, access to social protection and welfare schemes of national and state governments and income generation programs
2. **Education**
 - a. Implement projects with girls to improve retention in higher secondary schools and complete education up to 10th standard in northern states in India
 - b. Improve quality of education provided in schools (primary and secondary) in collaboration with national and state education departments
 - c. Strengthen pre-school education and early education in collaboration with Ministry of Women and Child Department and state departments
 - d. Strengthen vocational training and skills training for older adolescent children
3. **Medical relief**
 - a. Implement project activities to increase availability; accessibility and supply of Zinc and Oral Rehydration Salt (ORS) as part of the Diarrhea Alienation through Zinc/ ORD (DAZT) Project in the states of Uttar Pradesh, Madhya Pradesh and Gujarat.
 - b. Strengthen education, information and communication around HIV/ AIDS; Family Planning; Tuberculosis and Maternal Child and Neonatal Health at the national level and in select states in India.

2014 - 2015

FHIndia continued to strengthen and scale up its work with PLHIVs and undertook a range of activities for the betterment of their lives Koraput (Orissa) and Chandrapur (Maharashtra).

World Health Organization (WHO) provided a grant to Family Health India in February 2015 to support charitable activities on integration of tobacco cessation among tuberculosis patients in the state of Rajasthan.

Family Health India staff and consultants assisted the Rajasthan TB Control Program in conducting training of trainer's workshop at state level (March 2015) and at District level (March 2015).

2017 - 2020

SAMARTH - Integrated rural development project - In the year 2017 Project SAMARTH was started with support of HDFC bank. Project aims at integrated rural development including integrated rural development, environment sustainability, quality education, renewable energy, agriculture development, formation and strengthening self-help groups and livelihood promotion.

Current Projects

Elimination of mosquito borne endemic diseases (EMBED) project (Rural)- EMBED project is aimed to contribute to the goal of elimination of malaria from India by 2030. Goal of the project is to reduce morbidity and mortality due to malaria and dengue. The field teams include community volunteers and behaviour change facilitators (BCCF) who conduct village chaupals (small group meetings), make door-to-door household visits, conduct community awareness drives using local folklore and demonstrating use of bed nets, support the government frontline workers in undertaking larva surveys and fever screening; supporting the department of health in the distribution and use of long-lasting insecticide nets (LLIN)

and indoor residual sprays (IRS); and tracking cases of malaria and following-up for treatment adherence

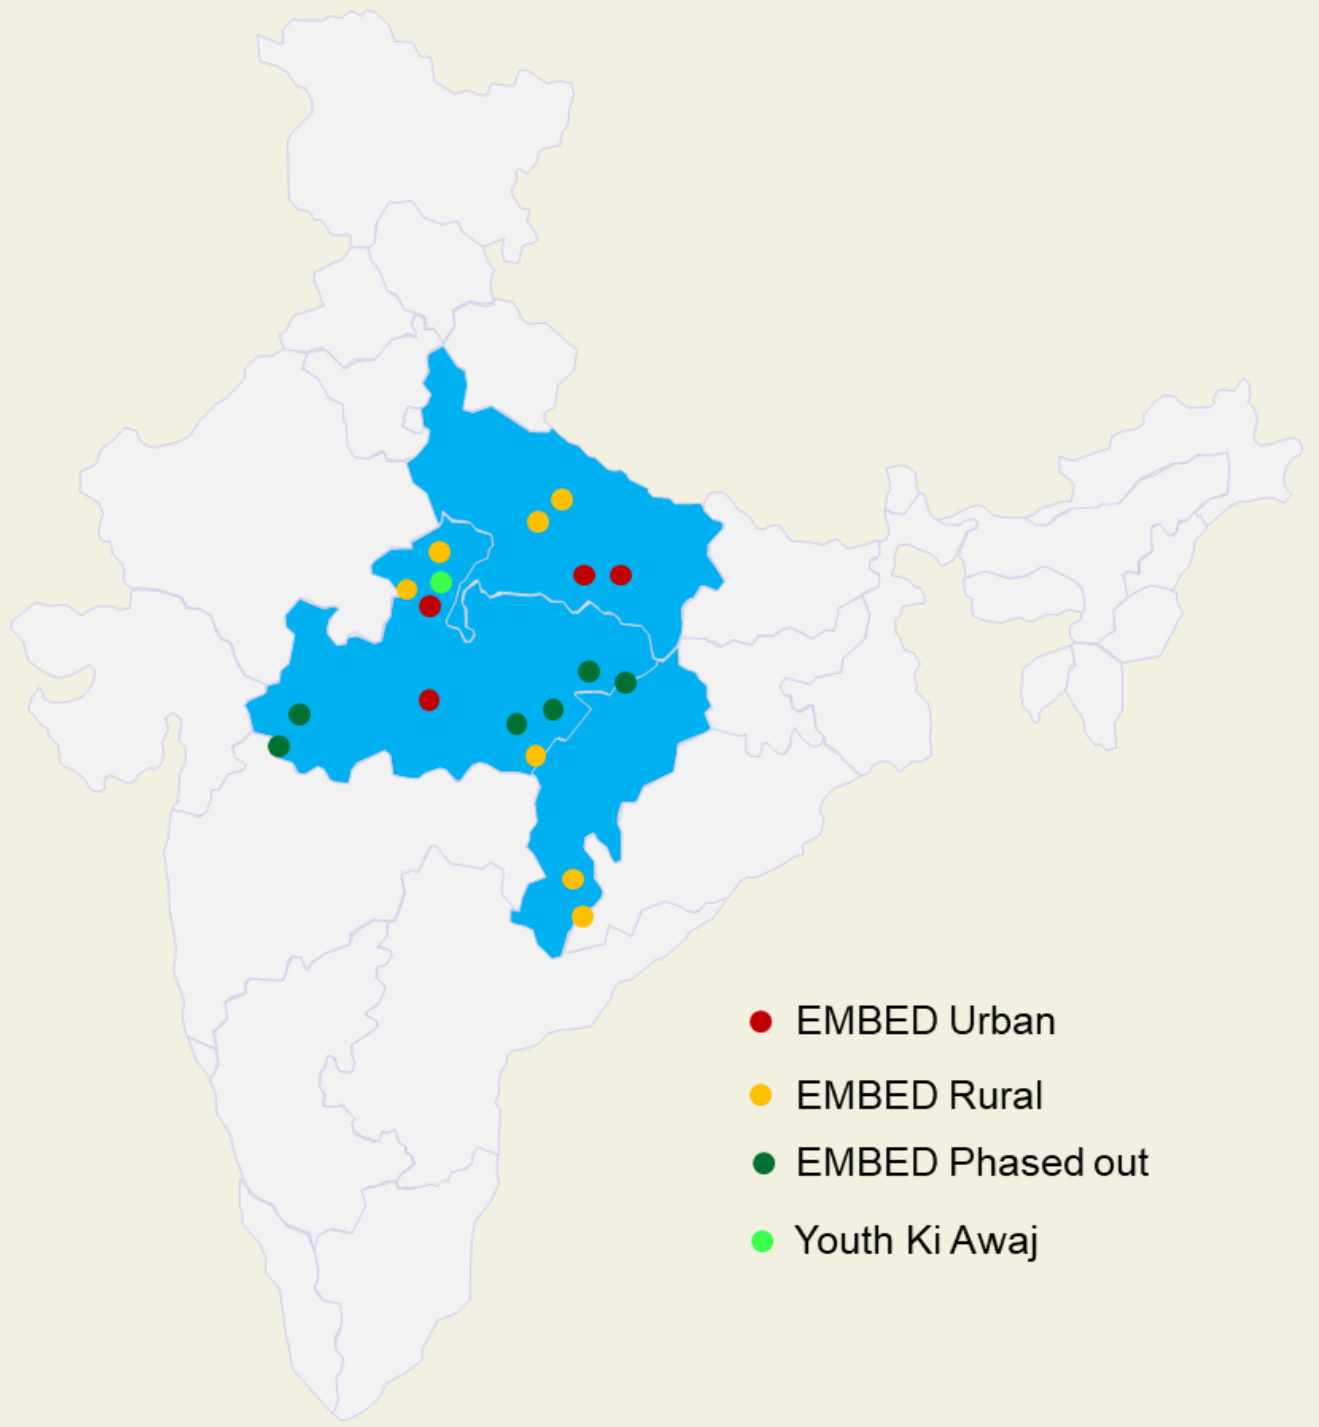

Youth ki Awaz project - Youth ki Awaz (YKA) Project, supported by the Corporate Social Responsibility (CSR) initiative of Godrej Consumer Industries Private Limited is being implemented in four intervention villages near Godrej Factory location in Malanpur, Bhind, Madhya Pradesh.

Elimination of mosquito borne endemic diseases (EMBED) project (Urban)- The Elimination of Mosquito Borne Endemic Diseases (EMBED) Project (Urban), supported by the Good and Green, Corporate Social Responsibility (CSR) initiative of Godrej Consumer Industries Private Limited started in December 2020.

The Project interventions started in four cities in Madhya Pradesh and Uttar Pradesh i.e. Bhopal, Gwalior and Lucknow, Kanpur. This phase of the project covers a total of 400 slums of high burden of dengue cases across these four cities in two states. The key approaches adopted included: influencing positive behavior change through group meetings complemented with home visits and community mobilization and awareness creation activities; linking families to health care providers for timely diagnosis and treatment of Dengue and Malaria; and training of ASHA workers and health care providers (HCP) on early and correct diagnosis and treatment for dengue and malaria.

Thematic Areas of Work

- **Health and Sanitation:** Vector Borne Diseases (VBD), HIV/AIDS, reproductive, maternal, neonatal, child and adolescent health (RMNCH+A) and Health system strengthening; water, sanitation and hygiene (WASH)
- **Environment:** Solid and plastic waste management, Renewable energy and Environment sustainability
- **Education:** Health awareness sessions at upper primary and secondary level, teacher's orientation, engagement of children in community awareness drives, upgradation of classrooms and science laboratories
- **Livelihood:** Livelihood promotion and entrepreneurship development and sustainable agriculture and livestock development
- Youth Engagement
- Renewable Energy
- Watershed Management
- Agriculture Development

Summary Achievements

1,228+ Villages and Slums Covered	215,496+ Household Reached
3,051+ Village Health and Nutrition Days (VHND) supported	127 School Reached
84,893 Long Lasting Insecticide Nets (LLIN) distributed	2,138 ASHA Trained on Malaria
122 RHCP Trained on Malaria	714 Community Volunteer Trained
312 Health Camps Patients/Malaria Case Detection Activities	300 Adolescent girls Trained on menstrual hygiene and health and support of sanitary pads
19,266 Cluster Reached Through Home Visit	891 Community Awareness Drives
1,123 Communication Campaign and Awareness Drives	369 Press coverage
16 Adolescent girls' groups	25 Youths Linked with employment opportunities

Our Key Achievements

Fighting Vector Borne Diseases - Malaria and Dengue

FH India works with rural and urban areas to decrease in malaria and dengue related morbidity by sustainable behaviour change and continued access to services for prevention, diagnosis and treatment.

FH India works with rural and urban community on health and sanitation. Our team support government frontline workers (ASHA) in early diagnosis of malaria and dengue in rural tribal and slum areas. Health camps are organised from time to time during peak season. Field workers do regular follow-up of patients who test positive for treatment completion. The team works with gram panchayats and community volunteers on sanitation and cleaning drives in villages and slums. During the period of 2020-21, 2,138 ASHA workers and 122 rural health care providers (RHCP) were trained on vector borne disease prevention, control and treatment. 312 health camps and malaria case detection activities conducted.

ASHA/USHA workers were initially not confident in administering the rapid diagnostic testing kit (RDT) for malaria. After hands-on training and technical trainings using e-modules developed by FH India, they started testing and reporting cases. They also learned dose and medicine administration for malaria. As a result of that screening and testing, number of suspected malaria cases increased and were linked to treatment.

Malaria screening in Balaghat district, Madhya Pradesh (Photo: FH India)

Social awareness and community mobilization through community meetings and household visits is one of the primary areas of the work of our field workers. Regular community meetings called chaupals are held in every 25-30 family clusters. 19,266 chaupals were conducted in the reporting year, reaching 154,373 families four times through the year with the messages on malaria prevention, control and treatment. Community meetings (gram chaupal) in small group increased community awareness about mosquito borne diseases and how they can reduce mosquito breeding by cleanliness, use of mosquito net and other repellents.

Home Visit session on malaria in Bareilly district of Uttar Pradesh (Photo: FH India)

FH India conducted various community drive events, like Sanitation drives were conducted by village youths to make community aware about use of household toilets by all members, storage and handling of drinking water, handwashing practices by all household members, communication Van, National Dengue Day, National Youth Day, World Malaria Day.

World Malaria Day celebration in district Sidhi, state of Madhya Pradesh (Photo: FH India)

Working with students is always beneficial to change social behaviour. FH India worked closely with the schools and school-going children. 127 school awareness campaigns were conducted on vector borne diseases. Children were engaged in cleanliness drives and in undertaking rallies on different themes on different occasion.

Joining Hands in the Fight Against COVID

FH India has been approached by the Departments of Health and Family Welfare to support COVID19

surveillance and prevention of outbreak in remote rural and slums of urban geographies across all intervention districts of Madhya Pradesh, Uttar Pradesh and Chhattisgarh. FH India supported state governments and district administration in their response to COVID19 pandemic at last mile across all intervention districts in below mentioned areas:

- Conducted home visits for tracking of families where any member of the family has come from outside the state/district
- Supported ASHA/USHA and other frontline workers in tracking and community awareness on prevention from COVID19
- Reported suspected COVID19 cases to the closest Primary Health Center (PHC)/Community Health Center (CHC)
- Follow-up of persons on home quarantine
- Line listing of persons who visited any other country/ state/ country in previous 14 days or who came in contact of COVID19 patients and follow-up
- Reaching vulnerable and disadvantaged communities including persons with disabilities, elderly and women in distress (including pregnant women) and children
- Community awareness on compliance and restrictions of lockdown
- Tracking and inclusion of returnee migrants (returned due to COVID19) in the program and linked these families with services. The case study is documented as “Fighting twin infections of Malaria and COVID19 among returnee migrants in MP”. Training of field teams on COVID19 protection and managed supply of protection materials. Special screening camps organized for returnee migrant labours in EMBED intervention districts of Madhya Pradesh
- District Coordinators were part of planning meetings at the district level to support in the preparedness and area specific interventions. All project teams were issued identity cards to continue work during lockdown

Sanitization work done during Covid-19 in Shivpuri, Madhya Pradesh

Engaging Youth as Change Agents

FH India supported villagers mainly youth under project Youth ki Awaz. A total of 370 girls from 16 groups participated in these meetings. Total 80 meetings were organized in the reporting period. Issues of menstrual hygiene, nutrition, anemia, and immunization discussed using PLA tools, games and stories. All girls linked with these groups were provided sanitary napkins.

Meeting organised on adolescent health, in Bhind district of Madhya Pradesh (Photo: FH India)

Sanitation drives were conducted by village youths to make community aware about following areas:

- Use of household toilets by all members.
- Storage and handling of drinking water.
- Handwashing practices by all household members:
 - o After toilet use,
 - o Before cooking and feeding,
 - o Before and after eating
 - o After cleaning/ After handling garbage
 - o After coughing/sneezing/ blowing nose,
 - o After visiting a public space, including public transportation, markets and places of worship
 - o After touching surfaces outside of the home,
 - o Before, during and after caring for a sick person
- Reduce single use plastic.
- Screening of persons with diseases including fever, cough, diarrhea, jaundice and skin diseases.

Number of households reached by village:

Village	Households reached	Total population in reached households
Singwari	236	1,301
Gurikha	184	1,101
Khuman ka Pura	151	980
Hariram ka Pura	552	2,761
Total	1,123	6,143

National Youth Day observed by youths: An event was organized by youth volunteers in Singwari on National Youth Day (12 January). Purpose of this event is to strengthen collective leadership among youths and youths to take initiative for overall development of the village. 50 youths participated in this event.

Children's club: Project has formed 16 children's club across all four intervention villages. Games and awareness sessions on health and hygiene were organized by youth volunteers in the villages. These children clubs are working efficiently for reduce the use of single use plastic at household level; collection and safe disposal of plastic waste.

Linking youths with employment opportunities: Youth ki Awaz project team took initiative of sharing information about employment opportunities with youths in project area. Team has shared information of vacancies with Nehru Yuva Kendra Volunteers to all eligible youths in the villages and facilitated 25 eligible youths to fill the application which were got shortlisted. 15 youths went to take interview in Bhind. 4 youths linked with other projects being implemented by other NGOs. Youth were counseled and prepared for interview.

Adolescent girls' groups: Monthly meetings were organized with adolescent groups which were formed in previous year of the project. A total of 370 girls from 16 groups participated in these meetings. Total 80 meetings were organized in the reporting period. Issues of menstrual hygiene, nutrition, anemia, and immunization discussed using PLA tools, games and stories. All girls linked with these groups were provided sanitary napkins.

Training of youth volunteers: Training program for youth volunteers was organized to orient youths to participate in village development and taking initiatives for their villages. Key discussion points of this training were:

- Free coaching of school going children during non-opening of schools.
- Making plastic free village.
- Community engagement for WASH

Total 40 youths participated in this training program.

एम्बेड टीम ने चलाया सेल्फी विथ आरोग्य सेतु अभियान

दवा रिपोर्ट - शिवपुरी

विगत साल में सेल्फी विथ आरोग्य सेतु टीम ने प्रसारण फैमिली हेल्थ इंडिया की एम्बेड टीम व जिला स्वास्थ्य सर्मिता शिवपुरी के संयुक्त तत्वाधान में सेल्फी विथ आरोग्य सेतु अभियान चलाया।

संघीय और संघीय व वित्त की पहचान कराया जा रहा है। एम्बेड टीम द्वारा इस अभियान के तहत ग्राम स्तर पर कार्यरत बंधन व अंगरक्षकी कार्यकर्ताओं के साथ दूरसंचार व आम जनता के बीच संपर्क बढ़ाने के लिए मोबाइल पर आरोग्य सेतु एप डाउनलोड करवाया गया।

जिला समन्वयक एम्बेड परियोजना, शिवपुरी जिला ने बताया कि इस अभियान के तहत ग्राम स्तर पर कार्यरत बंधन व अंगरक्षकी कार्यकर्ताओं के साथ दूरसंचार व आम जनता के बीच संपर्क बढ़ाने के लिए मोबाइल पर आरोग्य सेतु एप डाउनलोड करवाया गया।

अभियान के दौरान आरोग्य सेतु एप के लाभ व इसे अपने मोबाइल में डाउनलोड करने हेतु आमजन को प्रेरित किया जा रहा है।

जिससे कि कोरोना के संभावित संकेतों को सूचना इसके माध्यम से आम जनता को सूचित कर और आगे बढ़ने से सतर्क हो

महिलाओं ने गांव को मलेरिया मुक्त बनाने की शपथ

बैहर (नईदुनिया न्यूज)। स्वास्थ्य एवं परिवार कल्याण विभाग और गोदरेज फैमिली हेल्थ इंडिया एवं कम्युनिटी डेवेलपमेंट सेंटर के संयुक्त तत्वाधान में चला रही एम्बेड परियोजना वालाघट जिले के तीन ब्लॉक बैहर, परसवाड़ा, बिरसा में पिछले तीन साल से मलेरिया उन्मूलन कार्य कर रही है। जिसके तहत बैहर ब्लॉक के मुफ्ती, बिरसा ब्लॉक के बहेरभाटा, कच्चापारी, तोरगा और परसवाड़ा ब्लॉक के चिखलाझोड़ी में आठ मार्च को अंतरराष्ट्रीय महिला दिवस मनाया गया। इन सभी महिलाओं को पुष्पगुच्छ से स्वागत किया गया। परिवार और समाज में उनके सहयोग के लिए उनको सराहा गया। गांव को मलेरिया मुक्त बनाने की शपथ ली गई। महिलाओं ने कहा हमारे आसपास

बैहर। जानकारी देते हुए महिलाएं। नईदुनिया

पानी जमा नहीं होने देंगे तथा हमारे पास पड़ोस के लोगों को भी साफ सफाई के बारे में प्रेरित करेंगे और मच्छरवानी को उपयोग करेंगे। गांव में जमा हुए पानी में सलाह में

एक बार मिट्टी तेल डालेंगे जिससे मच्छर के लार्वा को नष्ट किया जाएगा और महिलाओं ने ग्रामीणों को संदेश दिया की मच्छरवानी लगाए मच्छर भगाने वाले साधन का उपयोग

करें। मटके, बर्तन इत्यादि में पानी जमा नहीं करें। वच्चे एवं गर्भवती माताओं को मच्छरवानी में ही खुनाए और मलेरिया जैसी घातक बीमारी से बचाए।

फैमिली हेल्थ इंडिया के कार्यकर्ताओं द्वारा मलेरिया मुक्त बस्तर अभियान

बस्तर/लोहंडीगुड़ा (प्रखर)। स्वास्थ्य विभाग के साथ मिलकर गोदरेज-एम्बेड परियोजना, फैमिली हेल्थ इंडिया के कार्यकर्ताओं द्वारा मलेरिया मुक्त बस्तर अभियान द्वितीय चरण के दौरान आई ई सी, फिलप बुक, स्टोरी कार्ड के माध्यम से गांव के साथ साथ मलेरिया से बचाव हेतु घर घर जाकर की जा रही है मलेरिया से बचने हेतु जागरूकता।

मुख्य चिकित्सा और स्वास्थ्य अधिकारी जगदलपुर, बस्तर के निर्देशन में बस्तर जिले के दूर दराज के गांवों में लोगों को घर घर जाकर मलेरिया जांच दल के साथ मिलकर गोदरेज-एम्बेड परियोजना, फैमिली हेल्थ इंडिया के जो सी सी एफ, मितानिन दीदी, ए एन एम, एन टी के साथ लोगों को घर घर जाकर मलेरिया जांच की जा रही है साथ ही घर घर जाकर बताया जा रहा है कि मलेरिया और डेंगू जैसे मच्छरजनित बीमारियों से बचाव हेतु ही घरे में रखे पुराने मटके, टायर, बर्तन आदि में पानी जमा ना होने दे उसे पलटकर रख दें, अपने घर में और घर के बाहर पानी भर हुआ है तो हम सबकी यह जिम्मेदारी है कि उसमें हर 7 दिन में जला हुआ तेल डालें या उस पानी की निकासी करें, सोते समय रोज कोठानाशक मच्छरदानी जरूर लगाएं, बुखार, पेट दर्द, उलटी, कफकमी, बदन दर्द होने पर 24 घंटे में सबसे पहले नवदीकी मितानिन दीदी, ए एन एम दीदी, उप स्वास्थ्य केंद्र पर मलेरिया

जांच कराए। एम्बेड परियोजना के जिला समन्वयक अवधेश सिंह ने बताया कि ग्रामों में मलेरिया, डेंगू, डेंगू जैसे खतरनाक बीमारियों के उन्मूलन हेतु जनाजागरूकता अभियान और घर घर जाकर लोगों से पानी को जमा नहीं करने हर सात दिन में साफ सफाई करने, घर पर रखे हुए टायर, रूटे हुए बर्तन, खाली बॉयले को उलटा करे या फेंके या नष्ट करे

आशा कार्यकर्ताओं को दिया गया प्रशिक्षण

भास्कर ब्यूरो | सीधी

गोदरेज फैमिली हेल्थ इण्डिया द्वारा संचालित एम्बेड परियोजना के तहत आशा कार्यकर्ताओं को प्रशिक्षित किया गया जिसमें कोरोना बचाव की दिशा में शासन द्वारा जारी निर्देशों का पालन भी किया गया। प्रशिक्षण के दौरान कार्यकर्ताओं को चौफाल बैठक के तरीके को माड्यूल के माध्यम से प्रशिक्षित किया गया। जिसमें ग्रामीण जनों में मलेरिया एवं डेंगू के प्रति जागरूकता लाना है। आशा कार्यकर्ताओं को कहानी

साथ ही उनको आईसीसी सामग्री भी दिया गया जो चौफाल बैठक में सहयोगी होगा। ग्राम को मलेरिया मुक्त बनाने की जिम्मेदारी भी दी गई साथ ही कहानी, प्रश्नोत्तरी व संवाद के माध्यम से मच्छरों के जीवनचक्र व नियंत्रण के तरीके को बताया गया। मलेरिया जांच के लिए किए जाने वाले रक्त परिक्षण की विधि व दवा की खुराक विधि बताते हुए सभी आशाओं को प्रशिक्षित किया गया। इस कार्यक्रम में जिला समन्वयक आशीष राय, व्यवहार परिवर्तन कार्यकर्ता ग्राम सप्थार समिति से प्रदीप पाण्डेय व सेक्टर
