## About FH India

Family Health India (FH India) is registered under Section 8 (25) of the Companies Act. With a vision to improving the quality of life of the most marginalized, FH India works in health, nutrition, water and sanitation, and integrated rural development in states with poor development indices such as Madhya Pradesh, Chhattisgarh, Uttar Pradesh, and Rajasthan. FH India teams work collaboratively with state and district governments and community structures such as Panchayati raj institutions, self-help groups and a cadre of community volunteers and health educators to accelerate the response to public health diseases and developmental challenges at the last mile. FH India has managed CSR development projects funded by Godrej Goods and Green, HDFC Bank, Avantha Foundation, BILT India, WHO/India and UNDP. FH India has sound financial, human resources, administrative and procurement systems to ensure that we are compliant with Indian laws and regulations.

We have implemented projects in Madhya Pradesh, Uttar Pradesh, Chhattisgarh, Chhattisgarh and Rajasthan states. Our headquarter is in New Delhi and we have field offices in Budaun, Bareilly, Kanpur and Lucknow in Uttar Pradesh; and Bastar and Kondagaon in Chhattisgarh; and Shivpuri, Sheopur, Balaghat, Sidhi, Singrauli, Hoshangabad, Bhind, Gwalior and Bhopal in Madhya Pradesh.

### Key funders and collaborators:

#### Corporate:

- Godrej Good and Green Pvt. Ltd.
- HDFC Bank
- Avantha Foundation
- BILT

#### Government:

- Ministry of Health and Family Welfare (MoHFW), Government of India (GoI)
- State Governments of Madhya Pradesh, Uttar Pradesh and Chhattisgarh
- National Vector Borne Disease Control Program (NVBDCP)

#### Civil Society:

- Local NGOs and civil society organizations (CSOs) in intervention states

#### UN Agencies:

- United Nations Development Programme (UNDP)
- World Health Organization (WHO)

### Past Projects

#### 2009-2012

**People Living with HIV (PLHIVs) project-** During the year 2010 – 2011, FH India work has benefited 1,668 PLHIVs in Maharashtra and Orissa in partnership with Avantha Foundation and BILT. A total of 1,668 PLHIVs are registered at both the Antiretroviral therapy (AIDS treatment, ART) centres (735 at Ballarpur and 933 at Koraput). Of these 326 and 480 PLHIVs are on ART at Ballarpur, Maharashtra and Koraput, Orissa respectively. This work has been undertaken in areas that are among the most underdeveloped in India and the PLHIVs are drawn from economically and socially backward sections of the society. The work complements the work done by the Government of India through NACO and the State AIDS Control Societies of Maharashtra and Orissa.

FH India continued to strengthen and scale up its work with PLHIVs and undertook a range of activities for the betterment of their lives in year 2011-2012. A total of 1,926 PLHIVs are

registered at both the Antiretroviral therapy (AIDS treatment, ART) centres (814 at Ballarpur and 1,142 at Koraput). Of these 350 and 578 PLHIVs are on ART at Ballarpur, Maharashtra and Koraput, Orissa respectively.

#### **2013 – 2014**

1. **Poverty reduction:**
  - a. Implement projects with marginalized and poor populations on economic livelihood, access to social protection and welfare schemes of national and state governments and income generation programs
2. **Education**
  - a. Implement projects with girls to improve retention in higher secondary schools and complete education up to 10th standard in northern states in India
  - b. Improve quality of education provided in schools (primary and secondary) in collaboration with national and state education departments
  - c. Strengthen pre-school education and early education in collaboration with Ministry of Women and Child Department and state departments
  - d. Strengthen vocational training and skills training for older adolescent children
3. **Medical relief**
  - a. Implement project activities to increase availability; accessibility and supply of Zinc and Oral Rehydration Salt (ORS) as part of the Diarrhea Alienation through Zinc/ ORD (DAZT) Project in the states of Uttar Pradesh, Madhya Pradesh and Gujarat.
  - b. Strengthen education, information and communication around HIV/ AIDS; Family Planning; Tuberculosis and Maternal Child and Neonatal Health at the national level and in select states in India.

#### **2014 – 2015**

FHIndia continued to strengthen and scale up its work with PLHIVs and undertook a range of activities for the betterment of their lives Koraput (Orissa) and Chandrapur (Maharashtra).

World Health Organization (WHO) provided a grant to Family Health India in February 2015 to support charitable activities on integration of tobacco cessation among tuberculosis patients in the state of Rajasthan.

Family Health India staff and consultants assisted the Rajasthan TB Control Program in conducting training of trainer's workshop at state level (March 2015) and at District level (March 2015).

#### **2017 – 2020**

**SAMARTH – Integrated rural development project** – In the year 2017 Project SAMARTH was started with support of HDFC bank. Project aims at integrated rural development including integrated rural development, environment sustainability, quality education, renewable energy, agriculture development, formation and strengthening self-help groups and livelihood promotion.

#### **Current Projects**

**Elimination of mosquito borne endemic diseases (EMBED) project (Rural)**- EMBED project is aimed to contribute to the goal of elimination of malaria from India by 2030. Goal of the project is to reduce morbidity and mortality due to malaria and dengue. The field teams include community volunteers and behaviour change facilitators (BCCF) who conduct village chaupals (small group meetings), make door-to-door household visits, conduct community awareness drives using local folklore and demonstrating use of bed

nets, support the government frontline workers in undertaking larva surveys and fever screening; supporting the department of health in the distribution and use of long-lasting insecticide nets (LLIN) and indoor residual sprays (IRS); and tracking cases of malaria and following-up for treatment adherence

**Youth ki Awaz project** - Youth ki Awaz (YKA) Project, supported by the Corporate Social Responsibility (CSR) initiative of Godrej Consumer Industries Private Limited is being implemented in four intervention villages near Godrej Factory location in Malanpur, Bhind, Madhya Pradesh.

**Elimination of mosquito borne endemic diseases (EMBED) project (Urban)**- The Elimination of Mosquito Borne Endemic Diseases (EMBED) Project (Urban), supported by the Good and Green, Corporate Social Responsibility (CSR) initiative of Godrej Consumer Industries Private Limited started in December 2020.

The Project interventions started in four cities in Madhya Pradesh and Uttar Pradesh i.e. Bhopal, Gwalior and Lucknow, Kanpur. This phase of the project covers a total of 400 slums of high burden of dengue cases across these four cities in two states. The key approaches adopted included: influencing positive behavior change through group meetings complemented with home visits and community mobilization and awareness creation activities; linking families to health care providers for timely diagnosis and treatment of Dengue and Malaria; and training of ASHA workers and health care providers (HCP) on early and correct diagnosis and treatment for dengue and malaria.

### **SAHYOG**

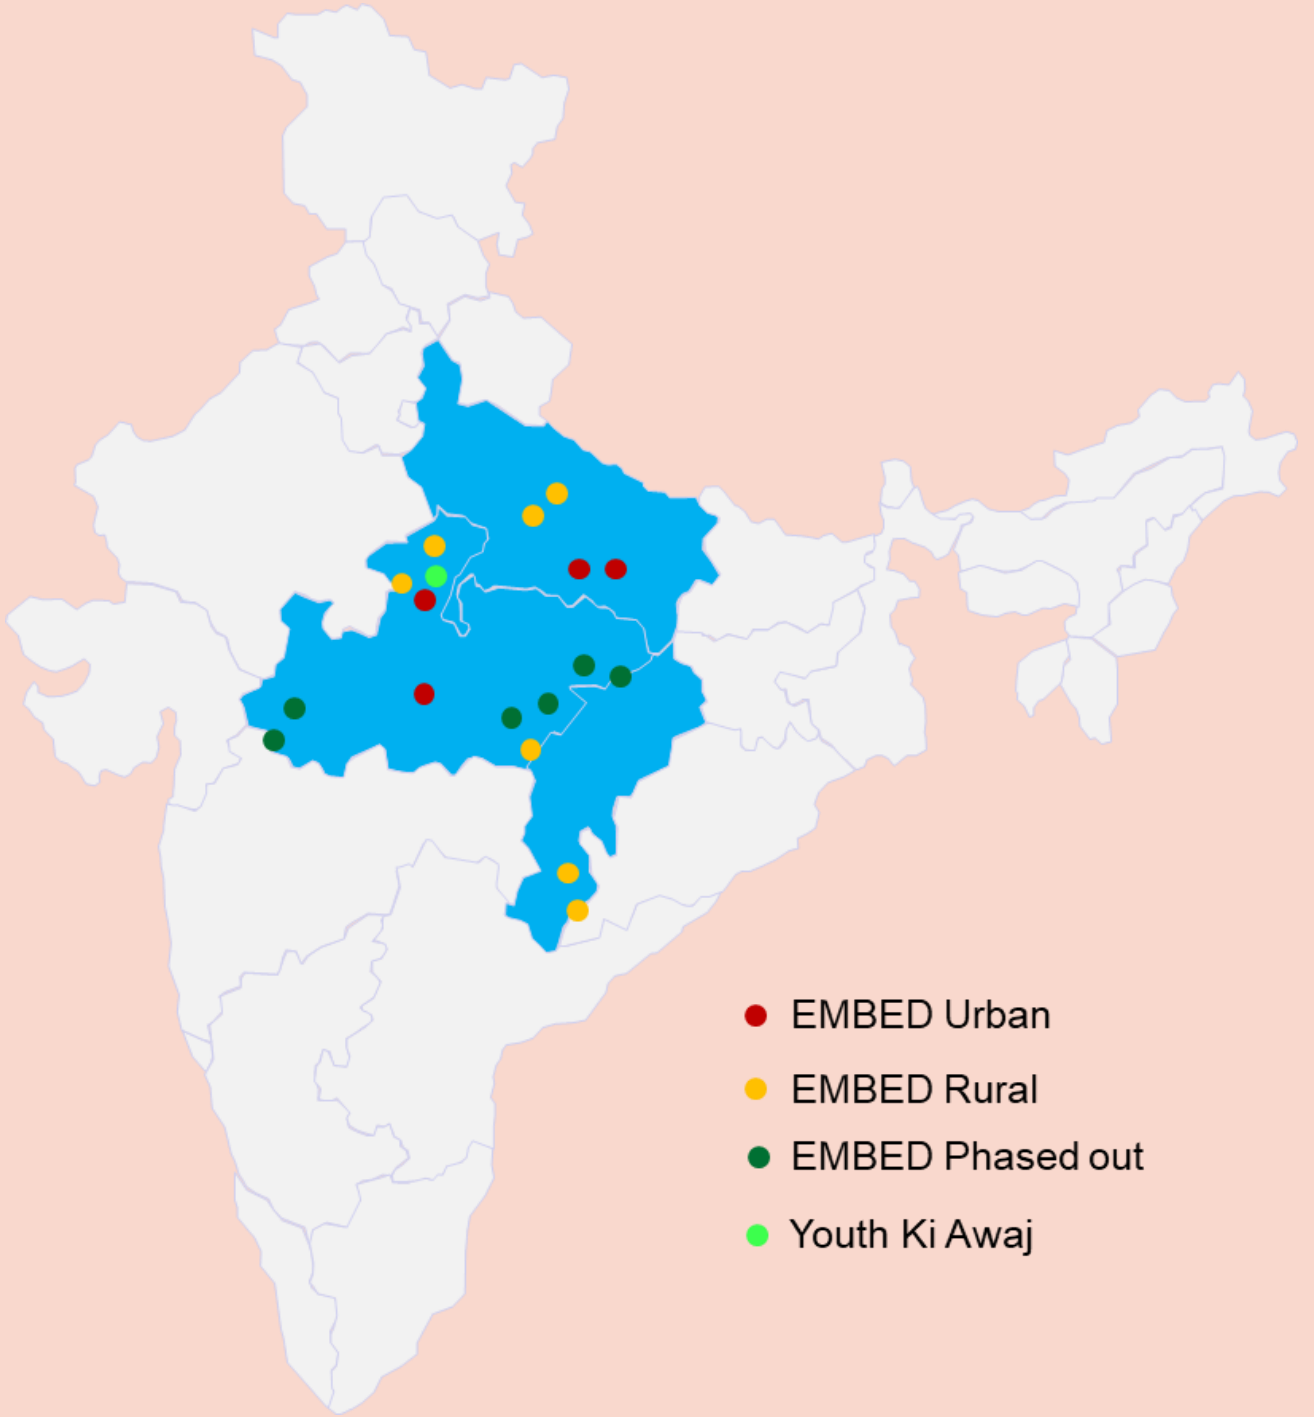

SAHYOG is a capacity building programme of NACP. Under the Global Fund for AIDS, TB and Malaria (GFATM) new grant (April 2021 -March 2023), HLFPPPT along with Family Health India and Public Health Foundation of India as Sub Recipients are implementing the Capacity Building project with NACO.

SAHYOG is a capacity building programme of NACP which was introduced in 1st of April 2021 that will continue till 31st March of 2024. Under this project training programmes will be organised in the 36 states/UTs of India. The Principal Recipient (PR) for the “SAHAS Grant” for GFATM is the National AIDS Control Organization (NACO) – Ministry of Health & Family Welfare (MoHFW) – Government of India (GoI) from April 1, 2021 to March 31, 2024. For Project Component-Capacity Building, a Memorandum of Understanding (MoU) was signed between NACO–MoHFW–GoI and Hindustan Latex Family Planning Promotion Trust (HLFPPT).

### **Thematic Areas of Work**

- **Health and Sanitation:** Vector Borne Diseases (VBD), HIV/AIDS, reproductive, maternal, neonatal, child and adolescent health (RMNCH+A) and Health system strengthening; water, sanitation, and hygiene (WASH)
- **Environment:** Solid and plastic waste management, Renewable energy, and Environment sustainability
- **Education:** Health awareness sessions at upper primary and secondary level, teacher’s orientation, engagement of children in community awareness drives, upgradation of classrooms and science laboratories
- **Livelihood:** Livelihood promotion and entrepreneurship development and sustainable agriculture and livestock development
- Youth Engagement
- Renewable Energy
- Watershed Management
- Agriculture Development

## Summary Achievements

<b>1,188+ Villages and Slums Covered</b>	<b>205,923 + Household Reached</b>
<b>2,2013+ Village Health and Nutrition Days (VHND) supported.</b>	<b>311 School Reached</b>
<b>53,675 Long Lasting Insecticide Nets (LLIN) distributed.</b>	<b>3,022 ASHA Trained on Dengue and Malaria</b>
<b>44 Health Care Providers Trained on Dengue and Malaria</b>	<b>883 Community Volunteer Trained</b>
<b>1,618 Health Camps Patients/Malaria Case Detection Activities/Malaria</b>	<b>187 Adolescent girls Trained on menstrual hygiene and health and support of sanitary pads</b>
<b>23,479 Cluster Reached Through Home Visit</b>	
<b>1,229 Communication Campaign and Awareness Drives</b>	<b>482 Press coverage</b>
<b>16 Adolescent girls' groups</b>	<b>8 Youth registered -Chief minister youth internship</b>

## Our Key Achievements

### Fighting Vector Borne Diseases – Malaria and Dengue

FH India works with rural and urban areas to decrease in malaria and dengue related morbidity by sustainable behaviour change and continued access to services for prevention, diagnosis and treatment.

FH India works with rural and urban community on health and sanitation. Our team support government frontline workers (ASHA) in early diagnosis of malaria and dengue in rural tribal and slum areas. Health camps are organised from time to time during peak season. Field workers do regular follow-up of patients who test positive for treatment completion. The team works with gram panchayats and community volunteers on sanitation and cleaning drives in villages and slums. During the period of 2021-22, 3,022 ASHA workers and 44 Rural health care providers (RHCP) were trained on vector borne disease prevention, control and treatment. World Malaria Day and National Dengue day observed in all 11 project districts.

ASHA/USHA workers were initially not confident in administering the rapid diagnostic testing kit (RDT) for malaria. After hands-on training and technical trainings using e-modules developed by FH India, they started testing and reporting cases. They also learned dose and medicine administration for malaria. As a result of that screening and testing, number of suspected malaria cases increased and were linked to treatment.

*Training of ASHA by e-module (Photo: FH India)*

Social awareness and community mobilization through community meetings and household visits is one of the primary areas of the work of our field workers. Regular community meetings called earlier called chaupals are held in every 25-30 family clusters now due to covid-19 restrictions we moved to household visits. 23,479 Clusters visit were conducted in the reporting year, reaching 205,923 families four times through the year with the messages on malaria prevention, control and treatment. Household visit to give messages on dengue malaria, increased community awareness about mosquito borne diseases and how they can reduce mosquito breeding by cleanliness, use of mosquito net and other repellents.

19.37574, 81.49747, 535.5m, 140°

Home Visit session on malaria (Photo: FH India)

FH India conducted various community drive events, like Sanitation drives were conducted by village youths to make community aware about use of household toilets by all members, storage and handling of drinking water, handwashing practices by all household members, communication Van, National Dengue Day, National Youth Day, World Malaria Day.

National Dengue Day 2021 celebration in district (Photo: FH India)

Working with students is always beneficial to change social behaviour. FH India worked closely with the schools and school-going children. 311 school awareness campaigns were conducted on vector borne diseases. Children were engaged in cleanliness drives and in undertaking rallies on different themes on different occasion.

## Joining Hands in the Fight Against COVID

FH India has been approached by the Departments of Health and Family Welfare to support COVID19

surveillance and prevention of outbreak in remote rural and slums of urban geographies across all intervention districts of Madhya Pradesh, Uttar Pradesh and Chhattisgarh. FH India supported state governments and district administration in their response to COVID19 pandemic at last mile across all intervention districts in below mentioned areas:

- Conducted home visits for tracking of families where any member of the family has come from outside the state/district
- Supported ASHA/USHA and other frontline workers in tracking and community awareness on prevention from COVID19
- Reported suspected COVID19 cases to the closest Primary Health Center (PHC)/Community Health Center (CHC)
- Follow-up of persons on home quarantine
- Line listing of persons who visited any other country/ state/ country in previous 14 days or who came in contact of COVID19 patients and follow-up
- Reaching vulnerable and disadvantaged communities including persons with disabilities, elderly and women in distress (including pregnant women) and children
- Community awareness on compliance and restrictions of lockdown
- District Coordinators were part of planning meetings at the district level to support in the preparedness and area specific interventions. All project teams were issued identity cards to continue work during lockdown
- Helping health worker to on covid vaccinations

## Engaging Youth as Change Agents

### Meeting with groups of adolescent girls:

FH India supported villagers mainly youth under project Youth ki Awaz. A total of 357 girls from 16 groups participated in these meetings. Total 112 meetings were organized in the reporting period. Issues of menstrual hygiene, nutrition, anemia, and immunization discussed using PLA tools, games and stories. All girls linked with these groups were provided sanitary napkins.

Meeting organised on adolescent health, in Bhind district of Madhya Pradesh (Photo: FH India)

Sanitation drives were conducted by village youths to make community aware about following areas:

- Use of household toilets by all members.
- Storage and handling of drinking water.
- Handwashing practices by all household members:
  - After toilet use,
  - Before cooking and feeding,
  - Before and after eating
  - After cleaning/ After handling garbage
  - After coughing/sneezing/ blowing nose,
  - After visiting a public space, including public transportation, markets, and places of worship
  - After touching surfaces outside of the home,
  - Before, during and after caring for a sick person.
- Reduce single use plastic.
- Screening of persons with diseases including fever, cough, diarrhoea, jaundice and skin diseases.

### Other Activities Observed

- International Women's Day – 80 women participated.
- Menstrual Hygiene Day – 187 women and girls Participated.
- World malaria day – 123 Participants participated.
- Global Handwash Day – 203 participants participated.
- World Environment day -143 Participants
- District and block level coordination meetings – 4 coordination meeting conducted.

- Program review meetings – 12 review meeting conducted.
- Support in VHNDs – 21 VHND supported by project.

### Engaging youth Volunteers

- Nehru Yuva Kendra Sangathan – 16 youth volunteers in 2 program
- Jan Abhiyan Parishad – 41 youth volunteers in 1 program
- Plantation – 250 plants planted.
- Youth engagement for climate change competition- 16 youth
- Chief minister youth internship program – 8 youth registered.

### Water and sanitation

#### *Community mobilization for cleanliness:*

- Project team has mobilized community members and garbage vulnerable points and drains were cleared for 29 sites.
- Volunteer Shramdan was done by youths at 29 places.
- Cleaning garbage vulnerable points – 23
- 30 Cleanliness drive conducted for reduce the use of single use plastic – 4 villages by engaging 105 youth volunteers. 102 Kgs of plastic and 140 kg other solid waste disposed.
- Approximate 19225 sq. ft. area clean in 4 villages by engaging youth volunteers.

### 5-S Implementation

- Training of youth volunteers on 5-S – 128
- 5-S Implementation across 4 villages by youth volunteers- 24
- All 24 youth volunteers participated in district and national level 5-S competition and secure gold and silver award.

## Our Team

### Senior Leadership

**Dr. Bitra George, Director**, has more than 27 years of experience in managing sexual and reproductive health and HIV/AIDS programs in India, spanning national and community levels. He is the Country Director of the FHI 360 India, Sri Lanka and Maldives Country Offices since March 2003. Dr. Bitra is managing a complex portfolio of public health projects on HIV/AIDS, family planning, vector borne diseases and health system strengthening. Dr. Bitra George a Director and member of the Board of Directors (BoD) of FH India since 2008.

**Sharad Malhotra, Director**, has over 25 years of experience in financial and administrative management of development projects. As Director, Finance and Administration of FH India, he is responsible for procurement and financial and contractual management. Mr. Malhotra currently supervises the finance, contracts and grants, administrative staff and liaises with the FH India field offices. He is familiar with the compliances and reporting requirements of several donors including USAID, CDC, BMGF, UN, Indian Foundations and CSR. Mr. Sharad Malhotra is a member of the Board of Directors (BoD) of FH India since 2008.

### Management Team

**Som Kumar Sharma, Associate Director** has over 20 years of experience in managing public health programs, nurturing partnerships, consortium management, health systems strengthening. His experience includes managing large scale programs on reproductive, maternal, new-born, child and adolescent health (RMNCH+A), family planning, routine immunization, tuberculosis, HIV/AIDS, vector borne diseases, and WASH. His current areas of expertise are program management and managing technological innovations in public health.

**Dr. Neeraj Kumar Sinha, Finance & Administrative Officer** has more than 12 years of experience in finance and administration in the development sector. He is responsible for providing financial, administrative and services in order to ensure effective, efficient and accurate financial and administrative operations and reporting.

**Rajesh Kumar Mishra, M&E and Documentation Officer** has more than 14 years of experience in the field of knowledge management, documentation and monitoring and evaluation (M&E). He is responsible for designing and operational roll-out of documentation, knowledge management, M&E and research assignments.

एम्बेड टीम ने चलाया सेल्फी विथ आरोग्य सेतु अभियान

दवायु रिपोर्ट • शिवपुरी

विगत साल से सेल्फी विथ आरोग्य सेतु अभियान को दिना में प्रसारण फैमिली हेल्थ इंडिया की एम्बेड टीम ने चलाया। स्वास्थ्य सेटु अभियान के संयुक्त तत्वों में सेल्फी विथ आरोग्य सेतु अभियान डी. एन. शर्मा के मार्गदर्शन में प्रारंभ किया गया।

सेल्फी विथ आरोग्य सेतु अभियान को दिना में प्रसारण फैमिली हेल्थ इंडिया की एम्बेड टीम ने चलाया। स्वास्थ्य सेटु अभियान के संयुक्त तत्वों में सेल्फी विथ आरोग्य सेतु अभियान डी. एन. शर्मा के मार्गदर्शन में प्रारंभ किया गया।

महिलाओं ने गांव को मलेरिया मुक्त बनाने की शपथ

बैहर (नईदुनिया न्यूज़)। स्वास्थ्य एवं परिवार कल्याण विभाग और गोदरेज फैमिली हेल्थ इंडिया एवं काम्यूनिटी डेवलपमेंट सेंटर के संयुक्त तत्वावधान में चला रही एम्बेड परियोजना वालाघट जिले के तीन ब्लॉक बैहर, परसवाड़ा, बिरसा में पिछले तीन साल से मलेरिया उन्मूलन कार्य कर रही है। जिसके तहत बैहर ब्लॉक के मुकनेर, बिरसा ब्लॉक के बहेरुभाटा, कच्चापरी, तोरगा और परसवाड़ा ब्लॉक के चिखलाझोड़ी में आठ मार्च को अंतरराष्ट्रीय महिला दिवस मनाया गया। इन सभी महिलाओं को पुष्पगुच्छ से स्वागत किया गया। परिवार और समाज में उनके सहयोग के लिए उनको सराहा गया। गांव को मलेरिया मुक्त बनाने की शपथ ली गई। महिलाओं ने कहा हमारे आसपास

जानकारी देते हुए महिलाएं। नईदुनिया पानी जमा नहीं होने देंगे तथा हमारे पास पड़ोस के लोगों को भी साफ सफाई के बारे में प्रेरित करेंगे और मच्छरप्रदानी का उपयोग करेंगे। गड़बड़ में जमा हुए पानी में सलाह में

एक बार मिट्टी तेल डालेंगे जिससे मच्छर के लार्वा को नष्ट किया जाएगा और महिलाओं ने ग्रामीणों को संदेश दिया की मच्छरप्रदानी लगाए मच्छर भगाने वाले साधन का उपयोग करें। मटके, बर्तन इत्यादि में पानी जमा नहीं करें। वच्चे एवं गर्भवती माताओं को मच्छरप्रदानी में ही सुनाए और मलेरिया जैसी घातक बीमारी से बचाए।

फैमिली हेल्थ इंडिया के कार्यकर्ताओं द्वारा मलेरिया मुक्त बस्तर अभियान

बस्तर/लोहंडीगुड़ा (प्रखर)। स्वास्थ्य विभाग के साथ मिलकर गोदरेज-एम्बेड परियोजना, फैमिली हेल्थ इंडिया के कार्यकर्ताओं द्वारा मलेरिया मुक्त बस्तर अभियान द्वितीय चरण के दौरान आई ई सी, फिलप बुक, स्टोरी कार्ड के माध्यम से गांव के साथ साथ मलेरिया से बचाव हेतु घर घर जाकर की जा रही है मलेरिया से बचने हेतु जागरूकता।

मुख्य चिकित्सा और स्वास्थ्य अधिकारी जगदलपुर, बस्तर के निर्देशन में बस्तर जिले के दूर दराज के गांवों में लोगों को घर घर जाकर मलेरिया जांच दल के साथ मिलकर गोदरेज-एम्बेड परियोजना, फैमिली हेल्थ इंडिया के जो सी सी एफ, मितानिन दीदी, ए एन एम, एन टी के साथ लोगों को घर घर जाकर मलेरिया जांच की जा रही है साथ ही घर घर जाकर बताया जा रहा है कि मलेरिया और डेंगू जैसे मच्छरजनित बीमारियों से बचाव हेतु ही घरों में रखे पुराने मटके, टायर, बर्तन आदि में पानी जमा न

होने दे उसे पलटकर रख दें, अपने घर में और घर के बाहर पानी भर हुआ है तो हम सबकी यह जिम्मेदारी है कि उसमें हर 7 दिन में जला हुआ तेल डालें या उस पानी की निचारी करें, सोते समय रोज कोठानाशक मच्छरप्रदानी जरूर लगाएं, बुखार, पेट दर्द, उल्टी, कफकमी, बदन दर्द होने पर 24 घंटे में सबसे पहले नजदीकी मितानिन दीदी, ए एन एम दीदी, उप स्वास्थ्य केंद्र पर मलेरिया

जिससे बरसात में उसमें लार्वा ना बन सके, इसके लिए एम्बेड टीम द्वारा घर घर जाकर जागरूकता के साथ लोगों को रोज मच्छरप्रदानी लगाने, फिलप कार्ड से जानकारी देना और बचाव के बारे में समझाने का काम किया जा रहा है। एम्बेड टीम द्वारा लगाए मलेरिया मुक्त बस्तर अभियान के दौरान बस्तर जिले के तीन ब्लॉक-दरभ, बासनागर और लोहंडीगुड़ा ब्लॉक के 100 गांवों में जाकर ओडिफ्लिक्लमिड, कांटेनारिना मच्छरप्रदानी रोज लगाने, साफ सफाई, बुखार होने पर 24 घंटे में जांच और पूरा उपचार लेने हेतु लोगों को घर घर जाकर फिलप बुक, स्टोरी कार्ड आदि के माध्यम से जागरूक किया जा रहा है। साथ में मितानिन दीदी/सी सी सी एफ के माध्यम से मलेरिया और डेंगू से सम्बंधित ए-मोड्यूल आधारित गैडेट्री और हल्की बस्तर में ड्रेनिंग दी जा रही है, जिससे उनकी जानकारी को बढ़ाया जा सके।

आशा कार्यकर्ताओं को दिया गया प्रशिक्षण

भास्कर ब्यूरो | सीधो

गोदरेज फैमिली हेल्थ इंडिया द्वारा संचालित एम्बेड परियोजना के तहत आशा कार्यकर्ताओं को प्रशिक्षित किया गया जिसमें कोरोना बचाव की दिशा में शासन द्वारा जारी निर्देशों को पालन भी किया गया। प्रशिक्षण के दौरान कार्यकर्ताओं को चौफाल बैटक के तरीके को माड्यूल के माध्यम से प्रशिक्षित किया गया। जिसमें ग्रामीणों में मलेरिया एवं डेंगू के प्रति जागरूकता लाना है। आशा कार्यकर्ताओं को कहानी
